Dear Colleague:

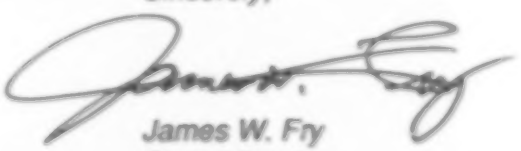
Michigan Public Library Statistics 1989 *is a compilation of information filed with the Library of Michigan by 1 February 1989. The data covers the latest 12 month operating year of the libraries.*

Libraries covered in this report are grouped in five sections according to the size of the population served. The areas of income, operating expenditures, collection, collection/circulation/personnel, and audiovisual resources are reported for each library. Two summary tables are also included. The first summary table shows TOTAL statistical information for each public library group. The second table provides AVERAGE statistical information for a "typical public library" in each public library group.

Statistical information is also given for public library cooperatives, and for regional and subregional libraries serving the blind and physically handicapped in Michigan.

I am pleased to present this report to you and hope you will find it a valuable resource.

Sincerely,



James W. Fry
State Librarian
